Confirmed Speakers Include:

China Chemical Fibers Association, China Chemical & Fiber Economic Information Network (CCFEI), CHTC Group, Clariant, Fansu (Shanghai) Technology, Company Limited, Fujian Shen Yuanxin Material Company Limited, Horizon Insights, INVISTA, RADICI, Tecnon OrbiChem, Uhde Inventa-Fischer AG, Zhejiang Huafon

For further information please visit www.orbichem.com
Global macro-economic conditions have been as complex and challenging as ever in 2018, and heading into 2019 there are a number of concerns facing the global petrochemical industry. China and India have suffered from currency devaluation, and geo-political instability has underpinned increases in crude oil prices. China’s government has brought about sweeping changes in environmental inspections and policies, including the relocation of chemical industry parks stemming from environmental-protection regulation.

As if those challenges weren’t enough, concerns about a possible China-US trade war became reality as the two governments implemented a series of tariffs and counter-tariffs on an ever-growing list of goods including petrochemicals, plastics and fibres.

The polyamide 6 industry in China continued to see rapid expansion throughout the chain in 2018. As major production sites have generally achieved integration, how can industry participants quickly react to changes in market dynamics? Since profits in the polyamide 6 value chain at the moment lie mainly with cyclohexanone, will some breakthroughs be achieved in the integration of cyclohexanone lines in the future?

As for the polyamide 66 market, tight feedstock supplies, particularly adiponitrile and HMDA, have led to a huge shortfall of PA 66 polymer, and prices have increased to previously unheard of levels in all regions. How long will the tight situation last, and will capacity expansion announced by a major producer provide any relief in the short- to medium-term? What is the progress on plans for domestic production of adiponitrile in China?

Are there any new applications which can be expanded in the downstream textile market for nylon-6 products? Also, are there advantages to be gained through polyamide industry integration which will produce benefits in market competition with other chemical fibres?

Market shares of polyamide engineering plastics and films are increasing quickly, but can those trends be sustained?

To provide you with an opportunity to look into these issues and exchange ideas with other market participants, based on successful forums during the past 15 years, Tecnon OrbiChem and China Chemical & Fibre Economic Information Network (CCFEI) will again jointly organize the 16th China International Polyamide & Intermediates Forum.

Top management from leading companies will attend the upcoming 16th forum, including INVISTA, Shenyuan New Material, Ube, KuibyshevAzot, Sumitomo, Baling Hengyi, Xinhui Meida, Sinopec, Fibrant (formerly DSM Nanjing), Huafon Spandex, Shenma Group, Eversun Holding Group, etc., together with related industry associations and governmental institutes. Senior analysts from Tecnon OrbiChem and CCFEI also will present their analysis and provide insight during the Forum.

Conference themes:

- Influence of China-US “trade war”
- Analysis of benzene-cyclohexanone market fundamentals
- Discussion about potential adiponitrile production in China
- Outlook of the caprolactam industry in a period of rapid capacity expansions
- Perspective of nylon 66 industry
- Current demand and future prospects for commercial and high-performance polyamides from automotive field
- Development and innovation of China polyamide 6 industry

Participants:

- Major nylon feedstock suppliers and traders home and abroad
- Major nylon 6 and nylon 66 fiber producers in China and overseas
- Engineering nylon plastics and film producers
- Major enterprises of nylon machinery, finish oil and auxiliaries home and abroad
- Related industry associations
- Related R&D and consulting institutes

Supporters: Nylon Fiber Committee of China Chemical Fibers Association, China National Chemical Fiber Corp,

Organizers: China Chemical & Fiber Economic Information Network (CCFEI), Tecnon OrbiChem
6 December 2018 (Preliminary Programme)

Conference Chairman: Wallace Weng, Marketing Manager, CHTC Landview Network Co., Ltd. (CCFEI)

09:00  To be confirmed, China Hi-Tech Group Corporation

09:40  How would US-China Trade Friction Impact China’s Nylon Industry, Deng Jun, Secretary General of Nylon Committee, China Chemical Fibers Association

10:05  Macro-economy Outlook in 2019, Zhang Zuohao, Macro-economy Analyst, Horizon Insights

10:30  Coffee break

11:10  The role of China ADN in the future of high-performance nylon, Kyle W. Redinger, Vice President of Intermediates, Asia Pacific, INVISTA

11:35  Topic to be confirmed, Song Manjun, Deputy General Manager, Fujian Shenyuan New Materials Co. Ltd.

12:00  Lunch

Conference Chairman: He Zhuosheng, Deputy General Manager, Guangdong Xinhui Meida Nylon Co., Ltd. Chairman, Nylon Fiber Committee of China Chemical Fibers Association

14:00  Caprolactam World Markets and the Special Influence of Cyclohexanone Availability in China, Charles Fryer, Chairman of Board, Tecnon OrbiChem

14:25  Plastics Producers Facing Challenges from the New Normal, Gong Weidong, CEO, Fansu (Shanghai) Technology, Co., Ltd.

14:50  Coffee break

15:30  Perspective of Modified Nylon Engineering Plastics, Zhang Yong, Head of Engineering Plastics Dept. East China, Shanghai Jinfa Technology Developing Co., Ltd.

15:55  Topic to be confirmed, Christian Elenz, Process Engineer, UHDE INVENTA-FISCHER GMBH

16:20  Networking opportunity

18:00  Dinner

7 December 2018

Conference Chairman: Charles Fryer, Chairman, Tecnon OrbiChem

09:00  Benzene Market Perspective in 2019, Shen Yili, Huafon (Shanghai) Trading Co., Ltd.

09:25  Possible Substitution of PA66 Engineering Resin by PA6 or Other Polymers, Andrea Adembri, Sales Director of RadiciGroup Specialty Chemicals BA, RADICI Group

09:50  Add Works TFB 117-Next Generation of"Nylostat S-EED"for high performance polyamides, Stevie Huang, Marketing Manager of Engineering Polymer Production BL Performance Additives/ BU Additives, Clariant Coatings (Shanghai) Ltd.

10:05  Coffee break

11:10  Shortages of PA66 Intermediates and the Effect on PA66 Availability, William Bann, Business Manager (Acetyls, Polyamide & Intermediates, Phenol, Acetone, Epoxy & Engineering Resins), Tecnon OrbiChem

11:35  Nylon 6 Enjoys Prosperity, While Nylon 66 Makes its Own Way, Sun Hongfen, China Chemical & Fiber Economic Information Network (CCFEI) Jiang Zhenhua, China Chemical & Fiber Economic Information Network (CCFEI)

12:00  Lunch (end of the conference)
Golden Tulip Shanghai Rainbow Hotel

Golden Tulip Shanghai Rainbow is the new Golden Tulip flagship in China featuring the new brand positioning delivering the concept of playful outlook on life, work, and travel enriched by local culture.

It is located in the business hub of Hongqiao Development zone, adjacent to the International Trade Center and Shanghai Mart, close to the inner express way and Yan’an road express way. There are several traffic main roads and subway No.3/4 are nearby. It takes 20 minute to various destinations like Hongqiao airport, newly built National Exhibition and Convention Center, and Huaihai road high-end commercial area by taxi. Many business office buildings, shopping centers, restaurants, and entertainments are located in the area.

This contemporary new look hotel is set in a 30-floor tower and counts 602 rooms divided in 5 categories such as, Superior, Deluxe, Executive, Deluxe Suite, and Executive Suite. It includes 1200 square-meters high-tech conference and meeting areas featuring pillar-less banquet hall and meeting rooms. Guest can enjoy a high quality experience in one of the 4 restaurants showcasing the finest in Chinese, Japanese, and French gastronomy, also 3 bars, rooftop bar - The Top, Slider, and Champagne Bar. The Coffee & Co cafe counter is located in the lobby “Lounge - Co-Working” area so that you do not have to choose between working and leisure time but can enjoy both together. An entire floor is dedicated to wellness and fitness so that you can either exercise or relax.

Golden Tulip Shanghai Rainbow Hotel, No. 2000, West Yan’an Road, Shanghai, China

SHARE YOUR VIEWS & EXPERTISE WITH MARKET LEADERS

The 16th China International Polyamide & Intermediates Forum will provide an opportunity for industry specialists to share their expertise and company objectives with an audience drawn from marketing and planning functions in the polyamide industry.

If you would like to join our panel of speakers, please contact Tracy Liu at CCFEI on (liuwenwen@cnfiber.com) or Tamsin Fryer at Tecnon OrbiChem (tamsin.fryer@orbichem.com).

EXHIBITION OPPORTUNITIES

The China International Polyamide & Intermediates Forum provides excellent opportunities for sponsorship. As a conference sponsor you will receive pre-conference promotion and high level presence at the conference. Stand space is also available which enables you to network with delegates during refreshment and lunch breaks. We will design a package to suit your needs and budget.

For further information on how we can help you engage with conference audience please contact Tracy Liu at CCFEI on (liuwenwen@cnfiber.com, lww1106@163.com).
